## H. S. PATTERSON'S ADDRESS TO CANADIAN CLUB

An appreciative audience of seventy individuals listened to Mr. H. S. Patterson of Calgary, when he lectured on the topic "Strengthening Confederation" at the meeting of the Canadian Club on Friday night. The lecture was followed by a Choral dance, the music being provided by the Gleichen Organ Orchestra.

Following the singing of "O Canada" the President, Mr. Purcell, introduced the lecturer, briefly and appropriately.

Mr. Patterson, on rising plunged into his topic without delay, by defining the origin of the State as seen by modern and by ancient philosophers. The ancient deemed the state to be of Divine origin, duly appointed with rulers and subjects by the will of God. This, of course, is very comforting to the ruling classes, and accounts for the stand taken by the organized churches through the ages. However the modern idea that the state is an association of individuals united for protection through self-interest must prevail. This idea logically culminates in an orderly and law-abiding republic, under whatever form may be used or whatever title may be given to the titular head of this state.

The broad division of states is into "Unitary" and "Federal." For purposes of comparison, the speaker compared the constitution of the "United States of America" with that of Canada. The difference dealt with were the franchise, marriage and divorce, the administration of the Criminal Law, the indirectly the prohibition law.

The constitution of the U. S. stresses the point that all men are equal in the eyes of the law, and yet in the republic residence qualifications vary from 8 months to 2 years while in some states of the Union payment of taxes is made a test. In Canada the Federal law is the same in all provinces, hence, all Canadian subjects are equal so far as the franchise is concerned.

Canada recognizes one reason for divorce only: New York also recognizes one only, but Kansas allows ten grounds. One must be a resident of Maryland for 2 years before applying for a divorce, while in Nevada one need be a resident of the state only 8 months, and now in Idaho the probation term is only 90 days. Divorce tourists are almost as probable to some of the states as are the motor tourists to Canada.

As regards capital punishment the same variation exists, the procedure of the courts is so cluttered up with technicalities as to seriously impair the administration of justice. There is no equality in the Criminal law because of the sovereignty of the individual states in legal enforcement. In Canada each breach of the Criminal law is defined and the punishment laid down so that offences and punishment are on the same basis throughout Canada.

The makers of the U. S. constitution declared that all citizens were equal in life, liberty, and property. They then delegated sovereignty to these matters to the individual state, and so nullified their former stand.

Canadian "Fathers of Confederation" with this example in front of them went further in securing Federal sovereignty but many matters have changed in the last 60 years. The matter of insurance is a provincial matter when it obviously should be a Federal matter. The Lemieux Act for the settlement of trade disputes was declared to be "ultra vires" as regards the Dominion hence the argument that unemployment is a provincial concern. The Canada Grain Act is a matter of Dominion control when rightly it is not a paramount concern of all the different parts of the country. The right of search should be uniform throughout the Dominion and not left to the provinces else a variety of local laws will result.

The framers of the B. N. A. Act could not possibly foresee all the

changes that have taken place this last two generations and it should be the care of all thoughtful Canadians to see that the ideas of the statesmen who were responsible for our constitution should be carried out in the light of modern conditions. Peace, order and good government are the concern primarily of the Dominion, with uniform laws for all Canadians in all parts of the country.

We are only beginning to enter upon our heritage. A population of ten million lives in an area which is placed in Europe in a similar geographical position would be superimposed upon an area of land affording a livelihood to over 160 millions. When our population approaches the number Canada is capable of supporting as Europe supports in the same latitude we shall see the need of strengthening the power of Confederation in the way the founders intended it.

Messrs. Cuthbert and chairman, N. T. Purcell proposed a vote of thanks to the speaker who must have been gratified at the response on the part of the audience.

An enjoyable and profitable evening ended with a dance which terminated about midnight.

## MEETING TO PLAN EMIPRE DAY PROGRAM

A meeting of the 24th May, sports committee will be held in the Community Hall, Club Room on Friday, 24th April, at 8 p.m. All interested are invited to attend. This meeting is open to all interested and the committees would like to see a large attendance.

## CHAUTAUQUA

Economy seems the all important thing today. But after all is it the all important thing?

Without the diversion of mind which Chautauqua brings we would soon get so disengaged facing the conditions of today, that the devil could not live with us. Begin now to be able to secure your tickets early in July. The Chautauqua dates are July 24-25-27-28-29 and 30th.

Why not make a real holiday of this week. Bring your lunches with you and spend part of the day beside the Gleichen swimming pool on the Agriculture grounds. You will not have to go to Bowness Park, Calgary, or the river anymore. Right in town there will be a community pool where old and young can enjoy themselves. It will be recreation for both mind and body. Remember the dates Chautauqua July 24th-30th.

## LOCAL BOY SCOUTS TO HAVE PICTURE MONDAY, APRIL 27TH

In view of the re-organization of the local Boy Scouts, we are to be favored by a visit from the Commissioner from Provincial Headquarters at Edmonton. On April 27, in the Community Hall, he will show the following moving pictures:— "World Jamboree of Scouts held at Arrow Park, England," "Alaskan Adventures". A Comedy. These are splendid pictures and everyone is invited to attend. There will be no charge for school children and the small charge of twenty-five cents for adults to defray expenses, and to begin a fund for our local Boy Scouts. No adult who has any interest in our Scouts should miss this opportunity of seeing the Big Jamboree and helping our local troop.

## BOARD OF TRADE SPECIAL MEETING

The Board of Trade held a special meeting Monday evening in the Community Hall to hear the report of the committee in the tree planting campaign. The Board is preparing to undertake. During the afternoon of that day Messrs. Stockton, Ripley and French of Strathmore and Baird Brooks all of the C. P. R. forest department looked the town over and supply plans showing where the street trees should be planted. Mr. Baird brought up from Brooks a popular tree about twelve feet high and said he could supply 200 like that at 20c. a piece. The Board will recommend to the town that the council buy these trees and have the holes dug for them while the Board of Trade members will plant the trees under the supervision of one who understand the cultivation of trees.

On July 1st the Board of Trade will put on a big sports day to commemorate the Gleichen Irrigation project. The plans for this celebration have not been completed up to the present but will be announced shortly.

## BLACKFEET INDIANS RECEIVE LARGE SUM LEASE MONEY

Monday and Tuesday of last week were not idle days for the staff of the Indian Agency, who were busy paying the Blackfoot Indians their lease money. Each Indian under 60 years of age received \$25.00 and those over 60 years \$50.00. On Monday the South Camp Indians were paid and on Tuesday the North Camp. The North Camp Indians received \$22,200.00.

We had the pleasure for a time of watching the staff of the Indian Agency in their office paying the North Camp Indians and it is done with a smoothness and dispatch, that to the uninitiated is a marvel to behold. On a high stool to one side, in front of a long table was seated Chief Duck Chief, chief of all the Blackfeet, and to the left of him at the other end of the table was seated sub chief Paul Little Walker, chief of the North camp.

A little in front of Chief Duck Chief and to one side was interpreter Calf Child. Across the table was seated Major A.G.B. Lewis and to his right Indian Agent Geo. H. Gooderham, to the right of the Agent Sergeant Tomlinson of R. C. M. P. and to the right of the Sergt. Bert James. At the front door the Indians were let in batches of half dozen. They carry their identification cards with them and on this card is their name, and how many in the family. Calf Child collects these and passes them to Major Lewis, who checks these cards, dates them, and passes them on to Agent Gooderham who counts out the money and if necessary questions the Indians. The money and the card is then passed to Sergt. Tomlinson who counts the money makes

WORLD HAPPENINGS  
BRIEFLY TOLD

The next session of congress will probably see restriction of immigration from Canada to about 4,000 annually.

A general election in Britain before the end of the present year was predicted by Mr. H. S. K. Nuttcliffe, British journalist.

The visit of Canadians going into China has not been increased so far as was expected at the Chinese consulate at Ottawa.

A visit to Canada by the British Empire Service League started at Niagara Falls, and the Rev. Dr. M. R. Ross, secretary of the Canadian Livestock Co-Operatives, accompanied them.

Sixty-four thousand voters were predicted for 1931, in Saskatchewan, if average weather conditions prevail, according to a warning by the Department of Agriculture.

Preservation by Canada of early specimens of architecture was urged at a meeting of the Royal Canadian Institute by Prof. E. R. Arthur, of Toronto.

About fifteen million years ago giant trees fifteen feet long stood around the stem cliff of the Rockies. A piece of wood from one of these monsters of the Ordovician period has been found embedded in a limestone cliff in Alberta.

The ban on the use of dogs in hunting deer may be brought into effect by legislation at the present session of the Ontario legislature. After several contentious sessions, the fish and game committee voted 10 to 9 in favor of closing the season of the dogs.

Official notice has been sent that 'The Army and Navy Veterans of Canada will seek power at the present session of parliament to have their charter suspended. The veterans' charter would be amended, according to a memo in a recent copy of the Canadian Legion.

Dr. Boland Huyck, of Philadelphia, explained to the Royal Society of Medicine, meeting in London, England, that he had developed a new method used for making X-rays of the kidneys and bladder. The new compound is reported to considerably advance the technique of diagnosis of diseases of those organs.

Contest Shows Girls  
Are Better Sleepers

And Less Grouchy In Morning Than Boys, Says Doctor

Girls are more likely than boys to sleep well and as a result feel more happy and less grouchy in the morning, Dr. L. L. K. Johnson, of the University, and his address at Ottawa.

An "intercollegiate good sleep competition" between boys of Colgate and girls of Radcliffe College has given girls have less trouble going to sleep, wake up fewer times and have fewer dreams.

"If you need an alarm clock to awaken you, then you need more sleep," the slumber expert said.

## British Wholesale Society

May Establish New Branches In Canada

The Toronto Globe quotes the following despatch from Ottawa:

"Representatives of the Co-operative Wholesale Society, which has headquarters at Manchester and hundreds of stores throughout England, had a conference with Hon. H. G. West, Minister of Co-operation. It is recommended the 'Co-op,' as it is popularly known in Britain, is contemplating establishing branches in Canada. Merchants there also are looking over the ground to see what they can purchase from the country in the way of food products."

"Their packing plant may be established in Canada, and Mr. R. H. Ross, secretary of the Canadian Livestock Co-Operatives, accompanied them."

## Many Tourists

Arrived in Canada From United States in 1930

A total of 5,409,458 motor cars coming tourist entered Canada from the United States in 1930, up 13 per cent. Of the 4,100,100 cars came for a stay of not more than 24 hours, 1,297,059 for a period not exceeding 60 days, and 1,000,000 for six months. The Province of Ontario had the most visitors, for 1,194,003 cars were admitted, followed by 669,797 cars, followed by New Brunswick, 269,100; British Columbia, with 185,000; Quebec, 151,047; Alberta, 30,510; Saskatchewan, 26,000; Nova Scotia, 22,100, and Prince Edward Island with only one, which was 190 per cent increase over 1929.

Visitors from the United States find Canada a safe place to visit, their nearest and friendliest neighbor. They are not required to passports, and Americans may enter Canada for tourist use for a period up to 90 days without duty or bond and for a period up to six months without paying taxes.

Visitors from the United States come to Canada to buy, and it is quite unnecessary for a tourist entering Canada to pay any tax for an item bought in Canada, unless its extension to a Canadian Customs officer will, without charge, assist the tourist in getting out the necessary papers. Canadians welcome visitors to come from the United States and other countries.

# Sir Josiah Stamp Will Conduct Inquiry Into Grain Futures Sales

Ottawa, Ont.—Does the sale of grain futures option to the public at all times? This was the salient question which Sir Josiah Stamp and his colleagues will be asked in detailed Press conferences around the House of Commons.

Sir Josiah, eminent British econ-

omist, consented to act as chairman

of a committee to conduct this inquiry at considerable inconvenience to himself.

The government has chosen the date for the first and subsequent conferences on this continent and in this country to do the detail of its inquiry. It is to be seen whether the same will be published in the near future.

Several meetings were thought to be held at each such conference.

Mr. Bennett declared, however,

that Sir Josiah had been asked to head the committee.

Two other commissioners will complete the board, one selected by the governments of the prairie provinces, and the other by the federal government.

The purpose of the inquiry was to demonstrate to Canadian readers that 10 per cent. Canadian banks rank high as those published anywhere, and that there are many potential authors in the Dominion.

## Winners In Writing Contest

Newest Calgary Girl Carries Off Third Prize

Montreal, Que.—A province-wide contest in novel writing came to an end with the announcement that Raymond Kaelberer of Port Dover, Ontario, had won the award of \$1,250.00 for his winning manuscript. The book will be published by the sponsors of the contest, and Ottawa publishing companies.

Second prize of \$1,000 went to Marcus Adeney of Canada, the third place to George Clegg, who with the sum of \$1,000, will receive a scholarship to the University of Western Ontario.

It was thought best to secure the services of some one entirely removed from the field of writing, and the judges recommended that they be published also.

Included in this latter category were Prof. Louis Cyr, Dr. John Joyce Broderick, newly appointed British minister to Cuba, and the Dominion's chief delegate at the conference that the productive powers of the wheat crop in a pre-war period had been exceeded.

One suggestion was that it is serious factor in the present economic depression, is of the opinion that the Canadian delegation of the conference, exploring what would meet together as soon as possible to organize an international basis the export surplus of wheat and being satisfied with the present low price of wheat on world markets.

The proposed conference covers a broader field than was originally suggested. As the view of the present situation is that the fallowing passes through the hands of fellow-passengers and Western Air, Inc. air liner in the mid-Kansas grazing country near Wichita.

The plane California-bound from Kansas City, crashed on a farm, killing all eight passengers. The plane was downed with favor the International wheat conference to be held in London, England, May 18. "All the information we can get," said Mr. Ferguson, "will be available to the good," he said.

A counsel will be selected to represent the Canadian delegation to the general changes, and the producers, according to present plans.

## Immigration Restricted

Government Policy Has Helped To Solve Unemployment Problem

Ottawa, Ont.—The government's policy of strict immigration has made it possible to solve the unemployment problem in the last six months, and has reduced the number of unemployed by nearly 10 per cent. over the corresponding period of the previous year, according to Hon. W. A. Goodwin, Minister of Immigration.

He also pointed out that during the last six months of the last fiscal year, 28,750 foreign workers, mostly men who were readers of the United States, had returned to Canada.

Now 11,000 of the fiscal year which began on April 1, 1931, 53,510 persons entered the Dominion as compared with 44,812 in the corresponding period of the previous year.

Total number of jobs placed in Canada, family and non-family, was 1,000,000, the number of immigrants deported amounting 5,200 to the end of February, 1931.

## Will Buy More Wheat

Wright's Company Has Practically Decided To Continue Purchase Policy

Toronto, Ont.—William Wright Company, limited, has practically decided to continue its purchase of wheat for the year, its purchase of Canadian wheat with all of the money derived from the sale of products in the provinces of Quebec, Alberta, and Saskatchewan, said J. Alan Ross, president of the company.

The company's investment fund inaugurated on December 12, 1930, was due to expire May 1 next. The original plan was to purchase up to 1,000,000 bushels of Canadian wheat in the period stated. The extended plan to cover the full calendar year, however, will be put up based on the maximum price to be paid, as in the original scheme.

It was estimated, said Mr. Ross, that the company would buy 600,000 bushels of wheat would be accumulated under the revised plan.

Will Head Industry Into Grain Marketing

London, Eng.—Sir Josiah Stamp, great economist and financier, has sailed for Canada to head the industry into grain marketing in the Dominion, it was announced yesterday in Canada until the early part of May.

"I am going partly for an Easter holiday," Sir Josiah told the *Danish Press* before leaving London, England, "and also at the request of the Canadian prime minister and government to advise concerning wheat quotations."

Many Analysts Count Hail

London, England.—Scores of money which the post office department obtained by offering letters sent from England to Ireland for tickets in the lottery to the "Viking" ship were handed up, pending a ruling by the British High Court on what disposition should be made of the money.

It was estimated, said Mr. Ross, that the company would buy 600,000 bushels of wheat would be accumulated under the revised plan.

## Lay Plans For Marketing Of The Wheat Crop

Rome, Italy.—The first steps were taken towards the orderly marketing of the world's surplus of wheat, crop, Argentina, Australia, Canada, Chile, Hungary, India, Poland, Romania, the Soviet Union, and Yugoslavia met to discuss problems of the market at the opening of a formal conference where, it is hoped, a definitive agreement will be reached for the sale of the 1931-32 crop.

It was upon the motion of Hon. G. Howard Ferguson, Canadian high commissioner to the League of Nations, in London, that the Dominions' chief delegate at the conference that the productive powers of the wheat crop in a pre-war period had been exceeded.

Several meetings were thought to be held at each such conference. The recommendations of the delegates recommended that they be published also.

In this latter category were Prof. Louis Cyr, Dr. John Joyce Broderick, newly appointed British minister to Cuba, and the Dominion's chief delegate at the conference that the productive powers of the wheat crop in a pre-war period had been exceeded.

The motion concluded by suggesting that the United States also be invited to the conference.

One suggestion was that it is the duty of the Canadian delegation to the conference to keep the European countries informed of the progress of the conference.

The proposed conference covers a broader field than was originally suggested. As the view of the present situation is that the fallowing passes through the hands of fellow-passengers and Western Air, Inc. air liner in the mid-Kansas grazing country near Wichita.

The plane California-bound from Kansas City, crashed on a farm, killing all eight passengers. The plane was downed with favor the International wheat conference to be held in London, England, May 18. "All the information we can get," said Mr. Ferguson, "will be available to the good," he said.

Members of Co-Operative Wholesale Society of Great Britain Are

Toronto, Ont.—We are merely in Canada as observers and have no opinions," said George E. Brooks, president of the Co-operative Wholesale Society of Great Britain, when interviewed by the *Post*.

However, he gave details of the organization, which comprises 1,111 affiliated societies and 4,028 332 co-operative societies.

Mr. Brooks said that in 1930, when the organization was founded, it had a turnover of \$20,000,000, while in the year ending July, 1932, they amounted to \$50,000,000.

There have been reports that the society contemplated establishing a branch in Canada.

## Want Health Probe

Urges Public Health Inquiry In Province Of Manitoba

Winnipeg, Man.—An application has been submitted to the Manitoba legislature into matters of public health in the province was urged in the House yesterday by Hon. Charles MacKay, member for Brandon.

The Hon. Charles MacKay, member for Brandon, said that the prime minister had directed him to find out what the prime administration had done to improve the public health in the province.

He said that he had been asked to make a report on the condition of the public health due to a statement made by the prime minister that special reasons had existed there for the condition of the public health due to a statement in connection with unemployment relief.

The situation was the prime minister, who was the present government in power, in contrast to the former squared away for the beginning of the fiscal year, was seeking new ways to meet the emergency accounts now instead of placing them in the next supplementary estimates for 1931-32.

It was the prime minister's endeavor to show that there forever will be no expenditures by deputy ministers in the administration of their departments.

It might be that his conception of the public health as a means of financial relief to the unemployed.

He said that his proposal to make them work, how ever, if his father received him? He has been received as a hired servant, he could be received as a hired servant.

While he is yet after off his father sees him and is moved with him, he is still a hired servant.

He is a great way off he saw me, and

As I sit in my sin I am

To kiss me as I came.

As I sit in my sin I am

Loved to me by the Pope.

## Ripped Fabric Caused Dirigible Disaster

Commission Gives Report On Crash Of R-161

LONDON, ENGLAND.—The dirigible, which started the world wide when it came down in flames on a hillside near Beauvais, France, last October, was 48 m. long and had been intended to circumnavigate the globe.

The report of the Simon Commission, which investigated the cause of the disaster, and just made public, indicated the disaster mainly to the sudden loss of gas in very bumpy weather.

The report considered that it was probable that the report of the Simon commission was correct in that the accident happened on a pre-war occasion and no amount of care could account for it. It would have been caused by a mechanical failure in the engine or in the gas system.

The commission refused to take a position one way or another regarding the effects of the tragedy on the future of lighted-airship navigation.

## Will Maintain Close Check On Expenditures

Ottawa, Ont.—Every department will, without their appropriations, if that is the case, be forced to lose their positions," declared the prime minister in the House of Commons.

The House was in committee of supply and the minister of finance was in committee of estimates.

"It is the intention of the government to maintain a close check on expenditures," declared the prime minister.

"The financial situation is so strained that the government must be forced to live within its means," he said.

Parliamentary expenses will be cut by 25 per cent., and the civil service by 10 per cent.

"The financial situation is so strained that the government must be forced to live within its means," he said.

C. W. Bennett who is making a specialty of growing Reward seed wheat which he has for sale has handed us the following information given by Dr. W. F. Geddes of the chemistry department, Manitoba Agricultural College. "Reward wheat grown in the north not only is better than Garnet, but actually exceeds Marquis in quality, because it tends to produce higher protein under the same conditions. We believe that the displacement of Garnet in the north by Reward would raise the average protein content of north-grown wheat by 10 per cent. to 20 per cent. This would result in a large increase in strength of the wheat grown in these areas and would be reflected in the quality of our general export wheat, which in turn, will result in benefit to the individual farmer. We do not hesitate, therefore, to advise most strongly the displacement of Garnet by Reward wheat."

"Rain or Shine," which for two seasons broke all records for attendance on Broadway, has been made into a film by Columbia Pictures and is scheduled to play at the Gleichen Community Hall on Saturday night. Joe Cook who starred in the stage version, plays his original role on the screen. On the stage he scored one of the greatest personal successes it is possible for an actor to achieve.

"Rain or Shine" was written by James Gleason, author of "Is That So?" "The Shannons of Broadway" and other popular stage and screen hits. The dialogue of this film of circus life follows most closely the stage version.

Frank Capra, the directorial genius who made "Flight," "Submarine," and "Ladies of Leisure," handled the production.

The cast is of stellar proportions including such personalities as Louise Fazenda, Joan Peers, William Collier, Jr., Alan Roscoe, Adolph Miller and Clarence Muse.

Bassano Mail:

The ratepayers of Gleichen have unanimously decided to build an irrigation system in their town. In a recent vote the people by a one hundred per cent ballot voted for expenditure of a large sum of money to build ditches and install equipment for irrigation. The people of Gleichen are to be congratulated. They have taken an important step toward beautifying their own town.

In taking this step Gleichen is emulating the example set by Bassano and Brooks. Both these towns have irrigation and by this means are able to grow an unlimited number of trees have beautiful parks and home surroundings, and in the case of Bassano a swimming pool. Irrigation works wonders in beautifying a prairie town, and in a few years time Gleichen may expect to accomplish much toward this end.

Twenty years ago the G. P. R. made an offer to supply irrigation water to Gleichen. The residents today regret that the offer was refused. In recent years Gleichen residents made frequent visits to Bassano and Brooks and learned what a great thing irrigation was.

They became "sold" on the idea, and now they are setting out to follow in our footsteps. With the unanimous backing of the ratepayers their belated effort should meet with success.

## CARD OF THANKS

Mr. and Mrs. P. R. Flem wish our many neighbors to accept our most high and sincere appreciation for the friendship which they have bestowed upon us in our hour of sorrow. We cannot at this time fully express our gratitude.
